WATER COMPANY AND COUNCILMEN FINALLY AGREE

City Administrators Pass Proposal Over Mayor's Veto; McMillen Sends His Acceptance of Plan.

By a vote of six to two, the city council last night passed over the mayor's veto their recent proposal to settle the valuation of the Water Supply company's plant. Immediately upon the passage of the motion a written statement from A. B. McMillen, accepting the terms of the proposal was introduced.

The plan provides for the appointment of an engineer by the city and one by the water company to settle the valuation of the plant. If the two cannot agree, a third expert is to be appointed by Chief Justice Hanna of the state supreme court to meet with the two for final settlement. The proposition differs from previous proposals in that the city will not have to pay more than \$400,000 for the plant. As soon as the motion favoring the proposal was passed, the city attorney and the chairman of the water committee were authorized to enter into a contract with A. B. McMillen, president of the Water Supply company. The former propositions which the council had refused to accept, left the appointment of a third expert in the hands of the engineers representing both parties. The majority of the aldermen thought that the choosing of the third expert by Justice Hanna, and fixing the maximum price for payment at \$400,000, would be satisfactory. Mayor Westerfield, as well as Aldermen Switzer and De Tullio, objected to the proposition on the grounds that the fixing of a maximum price was equivalent to paying that price.

Wine Rooms May Go. A resolution to compel all liquor dealers to do away with wine rooms, private booths or compartments of any kind set apart in corners of the saloon, was introduced by Alderman Clyde Tingley. Violators would be given thirty days in which to comply with the rule, after which they would be subject to a fine of not more than \$100 or imprisonment for thirty days. They would also be subject to forfeit their license. The matter was left in the hands of the ordinance committee.

Alderman George Hammond presented a resolution prohibiting J. M. Vickrey from doing further work on the city's behalf. The resolution was adopted by a vote of six to two. Cut This Out and Keep It. Every mother of young children should cut this out and keep it, that she may know what to get when her children have whooping cough. We first used Chamberlain's Cough Remedy in our home about three years ago when our daughter May had whooping cough, and it proved to be such an excellent medicine for this disease that I willingly recommend it. It never failed to relieve those whooping spells, loosen up the phlegm and give immediate relief," writes Mrs. Ethel Price, Mattoon, Ill.
